Lecturer: António José dos Santos Coelho

Language of Instruction: Portuguese

Regime: S2

Contact Hours: 840h Total Workload: 0h

ECTS: 30,0

---

### **Objectives**

The Internship UC intends to contribute to the achievement of the general objectives of the course, directing its applicability in specialized training, based on scientific knowledge and in the context of professional practice. Demonstrate, through experiences in contexts of practice, the ability to articulate theoretical training and the application of specific intervention methods and techniques, developed throughout the study cycle.

### **Learning Outcomes**

Be able to communicate with specialists and non-specialists, in a clear way, using the methodologies covered in the process of formation in the area of Tourism, Nature or Adventure; Develop skills that allow lifelong learning, in a fundamentally autonomous way; Develop work, in a real context, under supervision, aiming at the consolidation of technical, relational and organizational skills; Create habits of critical reflection on the real situations experienced, using this practice as a means and training opportunity; Provide a practical experience of relationship with more experienced professionals.

### **Course Contents**

Students can submit their project or internship proposals, which must be accepted and validated by the teachers course. Teachers bring together projects or internships proposed by the business community, which they make available for students to choose. Course teachers can also make project proposals.

### **Recommended Bibliography**

Especifica de acordo com o projeto ou estagio individual.

### **Learning and Teaching Methods**

It aims at the course that students apply previously acquired knowledge and skills, it makes sense that they demonstrate it through an internship with a previously defined work plan or that they can develop a project of equivalent size.

### **Assessment Methods**

The evaluation will be performed accordingly with the Regulation for Internship and Projects of The School of Technical Short Cycles.
